

ACUPUNCTURE – Pre & Post Embryo Transfer

- | | |
|---------------------------|----------------|
| ■ Weekdays | £200.00 |
| ■ Sundays & Bank Holidays | £250.00 |

Home visits can be arranged for an additional charge depending on the distances involved.

EMBRYO TRANSFER

We offer a special service whereby on the day of the embryo transfer we are able to provide the pre and post transfer treatments at the clinic rooms at City Fertility. This facilitates a more convenient and relaxing experience on transfer day for a patient. Also this emulates the treatment timings carried out in most of the research trials that used acupuncture directly before and after an embryo transfer.

We will do our best to ensure that one of us is available to cover embryo transfer treatments (including weekends), please contact us in good time.

We also offer acupuncture treatments in preparation of IVF and during the whole of the IVF cycle in our private clinics (close to Victoria Station and in Walthamstow).
