

Where Excellence
Meets **Hope**

PRICE LIST

THIRD IVF CYCLE FREE OF CHARGE

GENNET City Fertility offers a free cycle of In Vitro Fertilisation (IVF) package STANDARD following two unsuccessful IVF treatments (Natural IVF excluded).

Unsuccessful IVF treatment is to be considered when there is a negative outcome confirmed by a blood test (Beta hCG) after all embryos created from both cycles have been transferred including all cryopreserved embryos.

Our price list is reviewed regularly and all prices are subject to change. Any quoted treatment fees provided as per our individually costed treatment plans will be valid for a period of 2 months.

Medication is not included in any of the treatment costs. For estimated amount based on your treatment type and protocol please speak with a member of admin staff.

Payment methods are: online by link, debit/credit cards and bank transfer.

City Fertility will provide all patients with Terms & Conditions on their first visit which includes details in regards to payments, cancellation fees, refunds, storage obligations and other services.

CONSULTATIONS and ASSESSMENTS

INITIAL CONSULTATION	£200.00
FEMALE FERTILITY ASSESSMENT Consultation • Antral Follicle Count scan • Anti-Müllerian hormone test	£290.00
MALE FERTILITY ASSESSMENT Extended semen assessment • Follow up consultation	£185.00
INITIAL CONSULTATION PACKAGE Initial Consultation • Antral Follicle Count scan • Anti-Müllerian hormone test • Semen assessment	£350.00
FOLLOW-UP CONSULTATION On-site, By telephone or via Skype	£100.00
FOLLOW-UP 15 minutes over the phone	£50.00
UROLOGY CONSULTATION Investigations chargeable as per requirements	£300.00
COUNSELLING (per session) Implications, Supportive, Assessment. Please note 2 supportive sessions are included within treatment fee	£100.00

TREATMENTS

OVULATION INDUCTION INCLUDED: Monitoring ultrasound scans • Clinical input advice	£500.00
INTRAUTERINE INSEMINATION (IUI) INCLUDED: Nurse Consultation • Monitoring ultrasound scans • Monitoring bloods • 1 supportive sessions of Counselling (if required) • Sperm preparation • Insemination procedure • Pregnancy blood test • Pregnancy confirmation ultrasound scan	£1,125.00

IVF

STANDARD IVF PACKAGE

£3,500.00

INCLUDED:

Nurse Consultation • Monitoring ultrasound scans • Monitoring bloods • 2x supportive sessions of Counselling (if required) • Egg Collection procedure • Sperm preparation • Fertilisation using IVF • Extended embryo culture (as applicable) • Time-lapse system (subject to availability) • 1x Progesterone level confirmation blood test prior to Embryo Transfer • Embryo Transfer procedure • Pregnancy blood test • Pregnancy confirmation ultrasound scan

IVF with EMBRYO FREEZING

£3,500.00

INCLUDED:

Nurse Consultation • Monitoring ultrasound scans • Monitoring bloods • 2 supportive sessions of Counselling (if required) • Egg Collection procedure • Sperm preparation • Fertilisation using IVF • Extended embryo culture (as applicable) • Time-lapse system (subject to availability) • Embryo Freezing • Storage up to 12 months

EMBRYO FREEZING 3 CYCLE PACKAGE with FROZEN EMBRYO TRANSFER (FET)

£9,250.00

INCLUDED:

Nurse Consultation • Monitoring ultrasound scans and monitoring bloods for 3 IVF cycles and 1 FET cycle • 2 supportive sessions of Counselling (if required) • 3x Egg Collection procedures • Sperm preparation • Fertilisation using IVF • Time-lapse system (subject to availability) • Embryo Freezing • Storage up to 12 months from the first freeze event • Embryo Thaw • Extended embryo culture (as applicable) • 1x Progesterone level confirmation blood test prior to Embryo Transfer • Embryo Transfer procedure • Pregnancy blood test • Pregnancy confirmation ultrasound scan

All 3 cycles to be completed within 9 months of purchase. A cycle interrupted prior to Egg Collection procedure is subject to a fee of £400 per cycle and will be disregarded from the package. A cycle is deemed complete once an egg collection takes place. FET cycle which is interrupted prior to Embryo Thaw is subject to a fee of £400. The entitlement of 1 FET cycle will remain.

FROZEN EMBRYO TRANSFER (FET)

£1,300.00

INCLUDED:

Nurse Consultation • Monitoring ultrasound scans • Monitoring bloods • 2 supportive sessions of Counselling (if required) • Embryo Thaw • Extended embryo culture (as applicable) • 1x Progesterone level confirmation blood test prior to Embryo Transfer • Embryo Transfer procedure • Pregnancy blood test • Pregnancy confirmation ultrasound scan

Egg Freezing & Thaw

EGG FREEZING

£3,000.00

INCLUDED:

Nurse Consultation • Monitoring ultrasound scans • Monitoring bloods • 2 supportive sessions of Counselling (if required) • Egg Collection procedure • Time-lapse system (subject to availability) • Egg Freezing • Storage up to 12 months

EGG FREEZING 3 CYCLE PACKAGE

£6,900.00

INCLUDED:

Nurse Consultation (for every cycle) • Monitoring ultrasound scans and monitoring bloods (up to 3 cycles) • 2 supportive sessions of Counselling (if required, up to 3 cycles) • Egg Collection procedure (up to 3 cycles), Egg Freezing (up to 3 cycles) • Storage up to 12 months from the first freeze event

Clinical criteria may apply. All 3 cycles to be completed within 9 months of purchase. A cycle interrupted prior to Egg Collection procedure is subject to a fee of £400 and will be disregarded from the Egg Freezing 3 cycle package. The package is considered complete once all three Egg Collection procedures have been performed.

EGG THAW

£3,350.00

INCLUDED:

Nurse Consultation • Monitoring ultrasound scans • Monitoring bloods • 2 supportive sessions of Counselling (if required) • Egg Thawing • Sperm preparation • Fertilisation using ICSI • Extended embryo culture (as applicable) • 1x Progesterone level confirmation blood test prior to Embryo Transfer • Embryo Transfer procedure • Pregnancy blood test • Pregnancy confirmation ultrasound scan

Donation programmes

EGG DONATION CYCLE – GUARANTEE & 3RD CYCLE FOR FREE

4,900.00€

INCLUDED:

Consultation (deductible if you proceed with the treatment) • Monitoring ultrasound scans • 2 supportive sessions of Counselling for the Recipient (if required) • Egg Collection procedure • Sperm Preparation • Fertilisation using ICSI • Extended embryo culture (as applicable) • Assisted Hatching (as applicable) • Embryo Transfer procedure • Pregnancy blood test • Pregnancy confirmation ultrasound scan

• **The Guarantee Programme** guarantees the client at least 6 mature donor oocytes or 2 embryos suitable for transfer (Day 3 of cultivation) provided sperm quality is not classified as OAT (oligoasthenoteratozoospermia) and worse according to the WHO. If we fail to guarantee this and the client does not become pregnant (confirmed heart beat), we offer another cycle for free.

• **Third cycle for free** for clients who do not become pregnant (confirmed heart beat) even after 2 cycles with donated eggs with the 3rd cycle guarantee (after transferring all embryos created during these cycles) and the sperm quality was not qualified as OAT or worse in both cycles according to the WHO.

EGG DONATION CYCLE – 2 BLASTOCYSTS GUARANTEE

5,500.00€

INCLUDED:

Consultation (deductible if you proceed with the treatment) • Monitoring ultrasound scans • 2 supportive sessions of Counselling for the Recipient (if required) • Egg Collection procedure • Sperm Preparation • Fertilisation using ICSI • Extended embryo culture (as applicable) • Assisted Hatching (as applicable) • Embryo Transfer procedure • Pregnancy blood test • Pregnancy confirmation ultrasound scan

• **The Guarantee Programme** guarantees the client at least 2 embryos in the blastocyst stage (Day 5 of cultivation). Sperm quality must not be classified as OAT (oligoasthenoteratozoospermia) and worse according to the WHO. If the client receives only 1 blastocyst and does not become pregnant (confirmed heart beat), she is entitled to a 50% discount for the next cycle. If she does not receive any blastocyst and does not become pregnant (confirmed heart beat), she is entitled to a 100% discount for the next cycle.

EGG DONATION CYCLE – 2 BLASTOCYSTS GUARANTEE

£8,950.00

INCLUDED:

Monitoring ultrasound scans for both Donor and Recipient • 2 supportive sessions of Counselling for the Recipient (if required) • Egg Collection procedure • Sperm Preparation • Fertilisation using ICSI • Extended embryo culture (as applicable) • Embryo Transfer procedure • Vitrification of embryos including storage up to 12 months (as applicable) • Pregnancy blood test • Pregnancy confirmation ultrasound scan

EGG DONATION CYCLE UK – 2 BLASTOCYST GUARANTEE

£8,200.00

INCLUDED:

Donor related costs • Nurse Consultation • Monitoring ultrasound scans and cycle monitoring bloods for both the Donor and the Recipient • 2x supportive sessions of Counselling for the Recipient (if required) • Egg Collection procedure for donor including Sedation Anaesthesia • Sperm preparation • Fertilisation using IVF • Extended embryo culture (as applicable) • Time-lapse system (subject to availability) • 1x Progesterone level confirmation blood test prior to Embryo Transfer • Embryo Transfer procedure for the recipient – Fresh or Frozen cycle as applicable • Pregnancy blood test • Pregnancy confirmation ultrasound scan • Cryopreservation/freezing of embryos including storage up to 12 months (as applicable)

EMBRYO DONATION PROGRAMME

£3,390.00

INCLUDED:

Exclusive donation of donated frozen embryos from one source (one embryo at a time) • Donors' screening • Donors' counselling • Donors' compensation • Frozen Embryo Transfer (FET)

If the treatment's outcome is negative, you will be allocated another embryo from the same source (subject to availability) free of charge, only FET treatment fee would be payable – please refer to price for FET in the price list.

Preimplantation Genetic Testing (PGT)

IN VITRO FERTILISATION (IVF) with EMBRYO FREEZING treatment fee is applicable to all patients undergoing PGT cycles."

• Karyotype blood test	£250.00 – £520.00
PGT-A with vitrification (Preimplantation Genetic Testing of Aneuploidy)	
• Genetic consultation for PGT-A Mandatory for all patients pre PGS treatment	£150.00
• Biopsy and Courier fee (for all samples)	£650.00
• PGS aneuploidy screening of 24 chromosomes (price per embryo)	£290.00
PGT-M with vitrification (Preimplantation Genetic Testing in Monogenic Diseases)	
• Genetic consultation for PGT-M Mandatory for all patients pre PGT-M treatment	£250.00
• Biopsy and Courier fee (for all samples)	£650.00
PGT-M using haplotype analysis (incl. PGT-A)	
• Preparation of haplotype analysis	£900.00
• Price per embryo	£360.00
PGT-M using karyomapping (incl. PGT-A)	
• Preparation for karyomapping	£1,500.00
• Price per embryo	£360.00

LABORATORY SERVICES

• SEMEN ASSESSMENT	£135.00
• SPERM DNA FRAGMENTATION TEST	£500.00
• SPERM ANEUPLOIDY	£450.00
• ICSI – INTRACYTOPLASMIC SPERM INJECTION	£950.00
• PICSI in addition to ICSI	£240.00
• IMSI in addition to ICSI	£240.00
• EMBRYO FREEZING – VITRIFICATION In addition to treatment fee, including storage up to a period of 12 months	£600.00
• SPERM FREEZING Including storage up to a period of 12 months	£360.00
• ANNUAL STORAGE EGG, SPERM or EMBRYO up to a period of 12 months	£360.00

ADDITIONAL SERVICES

• SEDATION ANAESTHESIA	£230 – £250
• INTRALIPIDS per infusion	£250.00
• SURROGACY additional fee for cycles with surrogacy	£1,000.00
• GENETIC COUNSELLING	£300.00
• MEDICATION and BLOOD TESTS	POA
• IMPORT/EXPORT SPERM, EGGS, EMBRYOS (admin fee, courier charges not included)	£150.00
• IMPORT/EXPORT SPERM, EGGS, EMBRYOS for transports outside of the EU/EEA (admin fee, courier charges not included)	£250.00
• EXTERNAL PRESCRIPTION	£25.00
• VENEPUNCTURE CHARGE (out-patients attending for blood tests or injections)	£15.00

ULTRASOUND SCANS, UROLOGY and OTHER PROCEDURES

SCANS

• Complete ultrasound scan – 3D Assessment of uterus, endometrium, ovaries and surrounding areas, 3D assessment of the uterine cavity, colour doppler of the uterine blood flow	£180.00
• Complete ultrasound scan – 2D Assessment of uterus, endometrium, ovaries and surrounding areas	£150.00
• Monitoring ultrasound scan	£130.00
• Out-patient monitoring ultrasound scan including copy of report	£200.00

UROLOGY SERVICES

• Urology consultation	£300.00
• Follow-up Urology Consultation	£150.00
• Scrotal scan	£150.00
• PESA/TESA (Surgical Sperm Retrieval)	£1,350.00
• TESE (Testicular Sperm Extraction)	£1,450.00
• Micro –TESE	£POA

A consultation with urologist is necessary prior to PESA/TESA/TESE/micro-TESE procedures. Sedation and storage of samples are subject to an additional fee. When using sperm for treatment, ICSI will be required and will incur the relevant fee.

OTHER PROCEDURES

• Minor procedure	£200.00
• Hysteroscopy diagnostic	£600.00
• Hysteroscopy diagnostic – outpatient	£900.00
• Hysteroscopy operative	£1,900.00
• Histology	£250.00 – £340.00
• Endometrial biopsy (by pipelle) <2mm	£200.00
• Endometrial injury ('scratch')	£150.00
• Aquascan – Saline Infusion Sonography	£300.00
• HyCoSy – Tubal Patency Test	£450.00
• Mammogram (in conjunction with 108 Harley Street)	£245.00
• Endometrial Receptivity Array (ERA) including the Minor procedure fee	£950.00

PREGNANCY SCANS & ASSESSMENTS

• Early pregnancy scan Up to 10 wks of pregnancy	£150.00
• Non-invasive prenatal test NACE Safe and highly accurate test for Down syndrome, Edwards syndrome, Patau syndrome and sex chromosomes. Ultrasound scan subject to an additional fee.	£425.00
• Non-invasive prenatal test NACE24 Includes NACE + all other chromosomes. Ultrasound scan subject to an additional fee.	£620.00
• Non-invasive prenatal test NACE24 Extended Includes NACE24 + microdeletions. Ultrasound scan subject to an additional fee.	£700.00
• First Trimester Package INCLUDED: <ul style="list-style-type: none">• First Trimester scan at 6 wks, 8 wks and 10 wks (3 in total) and Non-invasive prenatal test NACE (Basic).	£690.00
