

Where Excellence
Meets **Hope**

PRICE LIST

Consultations, assessments, investigation procedures, medication, blood tests, sedation, donor sperm, laboratory methods or treatment add-ons are not included in any of the treatment costs, unless indicated as included in the relevant Costed Treatment Plan (CTP).

A generic Costed Treatment Plan (CTP) detailing information on costs likely associated with a specific treatment is available on our website www.city-fertility.com/costs, alternatively on the specific landing page for relevant treatment. All patients are provided with a tailored Costed Treatment Plan relevant to their specific treatment post Initial Consultation, however, we are not able to list all costs that might be incurred as this always depends on individual requirements, medical history, response to a stimulation medication and other factors. We also provide all patients with Terms & Conditions on their first visit which includes details in regards to payments, cancellation fees, refunds, storage obligations and other services

For all cycles mixing eggs and sperm, a HFEA fee is payable in the sum of £85.00. For all IUI cycles using donor sperm, a HFEA fee is payable in the sum of £37.50.

Payment methods are debit/credit cards (American Express only up to £750 per invoice) and bank transfer.

Our price list is reviewed regularly and all prices are subject to change. Any quoted treatment fees provided as per our individually costed treatment plans will be valid for a period of 2 months.

To get an idea on what your fertility journey could look like please visit our [Your Journey](#) page. This will help you to understand what individual steps might be involved, or are mandatory for treatment as some of these are chargeable and are not part of the treatment packages listed below (thus are excluded and need to be budgeted for). Please do not hesitate to get in touch with our team who will be happy to assist you to understand the average budget for the treatment you are interested in.

THIRD IVF CYCLE FREE OF CHARGE

GENNET City Fertility offers a free cycle of In Vitro Fertilisation (IVF) package STANDARD following two unsuccessful* IVF treatments (natural IVF cycles excluded).

*Unsuccessful IVF treatment is to be considered when there is a negative outcome confirmed by a blood test (Beta hCG) after all embryos created from both cycles have been transferred including all cryopreserved embryos.

CONSULTATIONS and ASSESSMENTS

The first step for any patient looking to undergo fertility treatment with us is to have an Initial Consultation or an assessment. Patients can be at different stages of their fertility journey and different consultation(s) or assessment(s) might be required or recommended. If you are in doubt, please do not hesitate to contact us.

INITIAL CONSULTATION	£200.00
FEMALE FERTILITY ASSESSMENT Consultation • Antral Follicle Count scan • Anti-Müllerian hormone test	£290.00
MALE FERTILITY ASSESSMENT Extended semen assessment • Follow up consultation	£185.00
INITIAL CONSULTATION PACKAGE Initial Consultation • Antral Follicle Count scan • Anti-Müllerian hormone test • Semen assessment	£350.00
LGBTQ+ INITIAL CONSULTATION PACKAGE Initial Consultation • Antral Follicle Count scan • Anti-Müllerian hormone test • Semen assessment (all services as applicable to the couple)	£350.00
FOLLOW-UP CONSULTATION On-site, By telephone or via Skype	£100.00
FOLLOW-UP 15 minutes over the phone	£50.00
UROLOGY CONSULTATION Investigations chargeable as per requirements	£300.00
COMPREHENSIVE MALE FERTILITY PACKAGE Examination and/or Scrotal scan, Semen Assessment and a Consultation with Urologist & Andrologist	£290.00
COUNSELLING (per session) Implications, Supportive, Assessment. Please note 2 supportive sessions are included within certain treatments, please refer to the individual Costed Treatment Plans.	£100.00

TREATMENTS

There is a number of treatments we offer and the Fertility Specialist will discuss the available options for you. Please note that there are additional services which might be required in addition to the treatment fee (such as consultation or assessment, investigation procedures, medication, blood tests, sedation, donor sperm, laboratory methods or treatment add-ons) and these are not included in any of the treatment costs (unless indicated as included in the Costed Treatment Plan that you can download as a PDF from www.city-fertility.com/costs).

If you have specific treatment needs and your treatment option is not listed here, please get in touch as we are unable to list all treatment variations.

OVULATION INDUCTION	£500.00
INTRAUTERINE INSEMINATION (IUI)	£1,125.00

IVF

STANDARD IVF PACKAGE	£3,500.00
RECIPROCAL IVF	£4,750.00
IVF with EMBRYO FREEZING	£3,500.00
Elective Freeze All Cycles are outlined as additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and has currently been deemed as amber in the HFEA traffic light system for additional treatment option as there is conflicting evidence from randomised controlled trials to show that it is effective at improving the chances of having a baby for most fer	
EMBRYO FREEZING 3 CYCLE PACKAGE with FROZEN EMBRYO TRANSFER (FET)	£9,250.00
All 3 cycles to be completed within 9 months of purchase. Elective Freeze All Cycles are outlined as additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and has currently been deemed as amber in the HFEA traffic light system for additional treatment option as there is conflicting evidence from randomised controlled trials to show that it is effective at improving the chances of having a baby for most fertility patients.	
FROZEN EMBRYO TRANSFER (FET)	£1,300.00

Egg Freezing & Thaw

EGG FREEZING	£3,000.00
EGG FREEZING 3 CYCLE PACKAGE	£6,900.00
All 3 cycles to be completed within 9 months of purchase.	
EGG THAW	£3,350.00

Donation programmes

EGG DONATION CYCLE – 2 BLASTOCYSTS GUARANTEE 	€5,700.00
<ul style="list-style-type: none">• The Guarantee Programme guarantees our clients at least 2 embryos in blastocyst stage (5th day of cultivation) assuming that the sperm quality is not qualified as OAT (oligoasthenoteratoyoospermie) or worse (according to the WHO). In case the patient receives only 1 blastocyst and does not get pregnant (confirmed heartbeat), we create at least 1 more embryo in asynchronous cycle (it means that the patient receives at least 1 additional embryo from oocytes of another donor). In case there is no blastocyst and the patient does not get pregnant (confirmed heartbeat), they are entitled to another cycle with 100% discount.• The third cycle is for free for patients who do not get pregnant (confirmed heartbeat) after 2 cycles with donated oocytes where all embryos created during these two cycles have been transferred and where the sperm quality was not qualified as OAT or worse (according to the WHO) in both these cycles.	
EGG DONATION CYCLE UK – 2 BLASTOCYST GUARANTEE 	£8,950.00
<ul style="list-style-type: none">• The Guarantee Programme guarantees our client at least 2 embryos in blastocyst stage (5th day of cultivation) assuming that the sperm quality is not qualified as OAT (oligoasthenoteratoyoospermie) or worse (according to the WHO). In case the patient receives only 1 blastocyst and does not get pregnant (confirmed heartbeat), they are entitled to a refund of £1,000. In case there is no blastocyst and the patient does not get pregnant (confirmed heartbeat), they are entitled to a repeated cycle free of charge (package worth £8,950 only; additional costs may apply). In both the above cases (1 blastocyst or no blastocyst) all embryos including those cryopreserved require to be transferred first and if the client does not become pregnant (confirmed heartbeat) then the guarantee is provided.	

EXCLUSIVE EGG DONATION UK  <i>Egg Donors from a UK agency</i>	£7,490.00
KNOWN EGG DONATION UK 	£6,250.00
EMBRYO DONATION PROGRAMME 	£3,390.00

If the treatment's outcome is negative, you will be allocated another embryo from the same source (subject to availability) free of charge, only FET treatment fee would be payable – please refer to price for FET in the price list.

Surrogacy

SURROGACY – ADDITIONAL FEE FOR CYCLES WITH SURROGACY **£1,250.00**

This fee varies depending on treatment needed and might not be applicable in all cases. Please enquire with the clinic for more details.

PREIMPLANTATION GENETIC TESTING (PGT)

Preimplantation Genetic Testing may be recommended by the Fertility Specialist. The fees below are in addition to your treatment fee. Where you have eggs or embryos already frozen, please get in touch for more information on the costings applicable to your case.

PGT is outlined as additional treatment option by the Human Fertilisation & Embryology Authority (HFEA) and have currently been deemed as **red** in the [HFEA traffic light system](#) for additional treatment options as there is no evidence from randomised controlled trials to show that they are effective at improving the chances of having a baby for most fertility patients.

For more information please visit [our website](#).

• Karyotype blood test	£250.00 – £520.00
PGT-A with vitrification (Preimplantation Genetic Testing of Aneuploidy)	
• Genetic consultation for PGT-A Mandatory for all patients pre PGS treatment	£150.00
• Biopsy and Courier fee (for all samples)	£650.00
• PGS aneuploidy screening of 24 chromosomes (price per embryo)	£290.00
PGT-M with vitrification (Preimplantation Genetic Testing in Monogenic Diseases)	
• Genetic consultation for PGT-M Mandatory for all patients pre PGT-M treatment	£250.00
• Biopsy and Courier fee (for all samples)	£650.00
PGT-M using haplotype analysis (incl. PGT-A)	
• Preparation of haplotype analysis	£900.00
• Price per embryo	£360.00
PGT-M using karyomapping (incl. PGT-A)	
• Preparation for karyomapping	£1,500.00
• Price per embryo	£360.00

LABORATORY SERVICES

Some of the laboratory services below are outlined as additional treatment option by the Human Fertility & Embryology Authority (HFEA). You can read more on the treatment add-ons on the HFEA website here, alternatively on [our website](#).

- **SEMEN ASSESSMENT** £135.00
- **SPERM DNA FRAGMENTATION TEST** £500.00
- **SPERM ANEUPLOIDY** £450.00
- **ICSI – INTRACYTOPLASMIC SPERM INJECTION** £950.00
- **PICSI in addition to ICSI** £240.00

PICSI is outlined as additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and have currently been deemed as **red** in the [HFEA traffic light system](#) for additional treatment options as there is no evidence from randomised controlled trials to show that they are effective at improving the chances of having a baby for most fertility patients

- **IMSI in addition to ICSI** £240.00

IMSI is outlined as an additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and have currently been deemed as **red** in the [HFEA traffic light system](#) for additional treatment options as there is no evidence from randomised controlled trials to show that they are effective at improving the chances of having a baby for most fertility patients

- **EMBRYO FREEZING – VITRIFICATION** £600.00

In addition to treatment fee, including storage up to a period of 12 months

- **SPERM FREEZING** £360.00

Including storage up to a period of 12 months

- **ANNUAL STORAGE EGG, SPERM or EMBRYO up to a period of 12 months** £360.00

- **ARTIFICIAL EGG ACTIVATION CALCIUM IONOPHORE** £500.00

Calcium ionophore is outlined as an additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and has currently been deemed as **amber** in the [HFEA traffic light system](#) for additional treatment option as there is conflicting evidence from randomised controlled trials to show that it is effective at improving the chances of having a baby for most fertility patients

ADDITIONAL SERVICES

The below are chargeable in addition to treatment fees or individual services items. Some may or may not be required depending on your circumstances. If you are in doubt, please do not hesitate to contact us.

• SEDATION ANAESTHESIA	£230 – £250
• INTRALIPIDS per infusion	£250.00
Intralipids is outlined as additional treatment options by the Human Fertilisation and Embryology Authority (HFEA) and have currently been deemed as red in the HFEA traffic light system for additional treatment options as there is no evidence from randomised controlled trials to show that they are effective at improving the chances of having a baby for most fertility patients.	
• GENETIC COUNSELLING	£300.00
• IMPORT/EXPORT SPERM, EGGS, EMBRYOS (admin fee, courier charges not included)	£150.00
• IMPORT/EXPORT SPERM, EGGS, EMBRYOS for transports outside of the EU/EEA (admin fee, courier charges not included)	£250.00
• EXTERNAL PRESCRIPTION	£25.00
• VENEPUNCTURE CHARGE (out-patients attending for blood tests or injections)	£15.00

ULTRASOUND SCANS, UROLOGY and OTHER PROCEDURES

The below services may or may not be recommended to patients depending on individual circumstances, alternatively we do offer these services to outpatients. Some of these services are included in the treatment packages (i.e. monitoring ultrasound scans and early pregnancy scan where indicated in the treatment breakdown) and some are chargeable in addition. If you are in doubt, please do not hesitate to contact us.

SCANS

• Complete ultrasound scan – 3D	£180.00
Assessment of uterus, endometrium, ovaries and surrounding areas, 3D assessment of the uterine cavity, colour doppler of the uterine blood flow	
• Complete ultrasound scan – 2D	£150.00
Assessment of uterus, endometrium, ovaries and surrounding areas	
• Monitoring ultrasound scan	£150.00
• Out-patient monitoring ultrasound scan including copy of report	£200.00

UROLOGY SERVICES

• Urology consultation	£300.00
• Comprehensive Male Fertility package	£290.00
• Follow-up Urology Consultation	£150.00
• Scrotal scan	£150.00
• PESA/TESA (Surgical Sperm Retrieval)	£1,350.00
• TESE (Testicular Sperm Extraction)	£4,500.00
• Micro –TESE	£6,250.00

A consultation with urologist is necessary prior to PESA/TESA/TESE/micro-TESE procedures. Sedation and storage of samples are subject to an additional fee. When using sperm for treatment, ICSI will be required and will incur the relevant fee.

OTHER PROCEDURES

• Minor procedure	£200.00
• Hysteroscopy diagnostic	£600.00
• Hysteroscopy diagnostic – outpatient	£900.00
• Hysteroscopy operative	£1,900.00
• Histology	£250.00 – £340.00
• Endometrial biopsy (by pipelle) <2mm	£200.00

Endometrial scratching is outlined as an additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and has currently been deemed as **amber** in the [HFEA traffic light system](#) for additional treatment options as there is conflicting evidence from randomised controlled trials to show that it is effective at improving the chances of having a baby for most fertility patients.

• Endometrial injury ('scratch')	£150.00
---	----------------

Endometrial scratching is outlined as an additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and has currently been deemed as **amber** in the [HFEA traffic light system](#) for additional treatment options as there is conflicting evidence from randomised controlled trials to show that it is effective at improving the chances of having a baby for most fertility patients.

• Aquascan – Saline Infusion Sonography	£300.00
• HyCoSy – Tubal Patency Test	£450.00
• HyCoSy combined with Aquascan	£500.00
• Mammogram (in conjunction with 108 Harley Street)	£245.00
• Endometrial Receptivity Array (ERA) including the Minor procedure fee	£950.00

ERA is outlined as additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and have currently been deemed as **red** in the [HFEA traffic light system](#) for additional treatment options as there is no evidence from randomised controlled trials to show that they are effective at improving the chances of having a baby for most fertility patients.

• EMMA biopsy and procedure	£435.00
• ALICE biopsy and procedure	£635.00
• EMMA & ALICE biopsy and procedure	£695.00
• EndomeTRIO biopsy and procedure (ERA, EMMA, ALICE)	£1,645.00

ERA is outlined as additional treatment option by the Human Fertilisation and Embryology Authority (HFEA) and have currently been deemed as **red** in the [HFEA traffic light system](#) for additional treatment options as there is no evidence from randomised controlled trials to show that they are effective at improving the chances of having a baby for most fertility patients.

PREGNANCY SCANS & ASSESSMENTS

• Early pregnancy scan Up to 12 wks of pregnancy	£150.00
• Outpatient pregnancy scan Up to 12 wks of pregnancy	£250.00
• Non-invasive prenatal test NACE Safe and highly accurate test for Down syndrome, Edwards syndrome, Patau syndrome and sex chromosomes. Ultrasound scan subject to an additional fee.	£425.00
• Non-invasive prenatal test NACE24 Includes NACE + all other chromosomes. Ultrasound scan subject to an additional fee.	£620.00
• Non-invasive prenatal test NACE24 Extended Includes NACE24 + microdeletions. Ultrasound scan subject to an additional fee.	£700.00
• First Trimester Package INCLUDED: • First Trimester scan at 6 wks, 8 wks and 10 wks (3 in total) and Non-invasive prenatal test NACE (Basic).	£690.00
