**COSTED TREATMENT PLAN - IVF package STANDARD**

**Treatment cycle cost example**

The below two tables are **examples** of the total treatment costs, and they provide price information about a standard treatment cycle and any possible additional costs that patients may have to pay on top of the cycle price, for example medication, blood tests or investigations. As it is not possible to provide an exact cost for medication, a reliable indication of the price is provided.

<b>Treatment cycle cost example 1</b>	
<i>First time patients</i>	
Initial Consultation Package	£350
HyCoSy combined with Aquascan	£500
Pre-treatment screen – Female	£260
Pre-treatment screen – Partner	£149
<b>IVF Package Standard Treatment fee</b>	<b>£3,500</b>
Sedation	£230
HFEA Fee	£85
Embryo Freezing	£600
Stimulation medication*	£2,500
Pregnancy medication*	£750
<b>Total</b>	<b>£8,924</b>

<b>Treatment cycle cost example 2</b>	
<i>Repeat cycle patients</i>	
Initial Consultation	£200
<b>IVF Package Standard Treatment fee</b>	<b>£3,500</b>
Sedation	£230
HFEA Fee	£85
Stimulation medication*	£2,000
ICSI	£950
Pregnancy medication*	£300
<b>Total</b>	<b>£7,265</b>

\*Please note it is not possible to provide an exact cost, therefore a **possible indication** of what the cost could be is provided. When a treatment plan has been agreed along with the drug protocol, you will receive an itemised total price for your treatment including stimulation medication. The pregnancy medication cannot be estimated until reaching this stage.

**Please be aware**, the total cost of treatment is subject to change, which is dependent on how the treatment progresses, for example, if ICSI wasn't planned however was desired on the day of egg collection, if an investigative test is required during the course of treatment or if more medication than quoted is necessary.

**Pricelist and Payment**

- Our price list is reviewed regularly and all prices are subject to change. This costed treatment plan is valid for a period of 2 months. Some of the services above may have been conducted prior to your treatment being planned, however they are detailed here for completeness.

## COSTED TREATMENT PLAN - IVF package STANDARD

- **The treatment fee, sedation, agreed medication plan, HFEA fee, screenings (if required i.e. out of date or previously had but does not reach requirement to accept), ICSI technique (if applicable) and any additional treatment add-ons are payable once the treatment quote is accepted. As per clinic policy, full payment for the quote must be made at this point in order to commence treatment.**
- All other services that are provided throughout the course of treatment are subject to individual pricing and full settlement is required on the day.
- Additional top up medication is payable upon order or collection.
- The clinic DOES accept credit cards, debit cards and bank transfers (please check any bank charges before transferring money to ensure full payment). There is an AMEX payment limit of £750 for the day and one maximum payment of £750 for an invoice.

### Cancellation policy & refunds

- Cancelled and/or abandoned cycles prior to egg collection for Covid-19, medical or personal reasons are subject to the individual service costs being chargeable as per the price list or as stated in the terms & conditions (i.e. monitoring ultrasound scans, cycle monitoring bloods, etc.) and the treatment fee being refunded.
- No refund is offered for cycles where Egg Collection procedure takes place as this is regarded as a completed treatment cycle.

### Additional

- Donor sperm storage for the first 3 months of storage is free of charge as we understand patients are looking to use the donor sperm within this window. If donor sperm storage goes beyond this period of storage the annual storage fee is applicable and chargeable at £360.
- In cycles ending with all embryos being cryopreserved for any reasons, please note that your treatment will be converted to IVF with Embryo Freezing which is charged at the same rate and it includes annual storage of the embryos for up to 12 months since the freeze event.
- For costs related to the use of any frozen embryos please refer to the Costed Treatment Plan for FET.
- Please refer to the Terms & Conditions provided for more detailed information.

### Statement

We encourage all patients to discuss this Costed Treatment Plan and costings in detail with a member of staff at City Fertility prior to starting a treatment or using a service. By starting a treatment or using a service you confirm that you have had the opportunity to discuss and understand the cost implications relating to your treatment, that you have also been given a copy of our Terms & Conditions and that you have been fully informed of the Cancellation policy.
